

FIT2179 Assignment 2 Sketch

Topic: Public Transport Accessibility Across Melbourne.

Aim: To see where PT is concentrated, which areas need more attention

Audience: People living in Melbourne who rely on PT for transportation.

Section 1: Intro

- Setting up the problem
- Visuals - PT stops overview (point map)
 - ~~Map~~ Number of stops by type (Bar chart)

Section 2: Stop locations

- Show spatial distribution of stops
- Visuals - Stop density across Mel (Heatmap)
 - Stops / SA2 area (Choropleth)
 - Stop distribution by type (Faceted multiple maps)

Section 3: Mode distribution

- Compare access to ~~by~~ type of PT
- Visuals - Stops by transport mode (bar chart)
 - Mode mix by SA2 (Choropleth or regional stacked chart)
 - Type coverage comparison (Dot plot)

Section 4: Population vs Access

- Does the population of an area match access to ptv
- Visuals - Stops per 10,000 ~~residents~~ residents by SA2 (Choropleth)
 - Population vs stops (scatter plot)
 - Top and bottom SA2 areas by access score (Ranked bar chart)

Section 5: Final Access score (conclusion)

- Simple PTV access score
- Visuals - PTV access score by SA2 (Final choropleth map)
 - Best vs Worst Access areas (highlight table)
